

OPP General Agenda – August 2, 2018

1. **Coumaphos Case in Texas** – OPP is working with OGC, OECA, USDA and Region 6 on a recent case where several cattle in Texas died after they were sprayed with coumaphos as part of a Cattle-Fever Tick Eradication Program. The program is managed by USDA in conjunction with the Texas Animal Health Commission. The Ag Commissioner of Texas has since suspended the spraying program because he believes that it violates FIFRA.
2. **Dicamba** – The OCSPP IO has scheduled weekly meetings for OPP to provide updates on state reported spray drift incidents from the use of Dicamba. The Ag Advisor's office will also attend the meetings. Rick reported that he received a second letter from Beck's Hybrids, the fourth largest soybean seed seller in the U.S. Beck's surveyed their customers on Dicamba and reported that 50 percent of their customers said they would like further restrictions or the product removed from market. **Nancy would like to see the survey results. Nancy would also like more information on the quantitative data. Rick has reached out to Beck's to request their raw data.**
3. **Chlorpyrifos** - California Department of Pesticide Regulation released their [[HYPERLINK "https://www.cdpr.ca.gov/docs/whs/pdf/chlorpyrifos_final_tac.pdf"](https://www.cdpr.ca.gov/docs/whs/pdf/chlorpyrifos_final_tac.pdf)]. **Rick shared a copy with Nancy.**
4. **Aldicarb** – OPP met with registrants in early July and **will redraft the letter and send it to the OCSPP IO for review.**
5. **Oxitec** – Oxitec has withdrawn their EUP application. The PRIA review due date of July 25, 2018, was renegotiated to November 9, 2018. **Nancy asked to see the broader timeline again. Rick asked if it would be helpful for Michelle Arling to brief the IO on the human studies rule and they agreed.**
6. **Cannabis** – OPP worked with the OCSPP IO in developing a 1-pager on cannabis for the Administrator's Office to share with the White House.

7. **Discussion with Region 4 Regarding Import Issues** – Rick, Ed and Jackie met with Region 4 to discuss their pesticide imports process. The Region’s electronic system for Notices of Arrival has increased substantially from 4k-5k/year to 4k-5k per week. Region 4 will initiate discussions on imports during the RDD meeting.
8. **OIG Discussion: WPS Performance Measures** – OPP met with the OIG to attempt to come to an agreement on the proposed corrective actions before the Audit Dispute Resolution Process is triggered. The OIC rejected OPP’s recommendations. **Nancy would like OPP to provide a 1-pager to inform Erik Baptist about the issue. Charlotte would like OPP to prepare a draft response to the OIG.**
9. **Discussion Topics for CDC Meeting** – OPP is working on an agenda for a meeting with CDC prior to the RDD meeting in September. Charlotte would like the discussion topics to focus on high level issues, such as how EPA and CDC work together, and how CDC’s reports impact OCSPP’s programs, specifically where there is overlap. Charlotte and Rick will also participate in a Region 4 All Hands meeting while they are in Georgia for the RDD meeting.
10. **White House request: Alternatives to Glyphosate for Coca Field Eradication** – The White House has asked for the Agency’s assistance in identifying alternatives to glyphosate for use on coca fields.

Waiting for OCSPP IO:

- Guidance from OCSPP-IO on Tier 3 Rules Process
- Chlorpyrifos: Comments on Meeting Summaries
- SmartLabel Naming Contest: Finalists
- Input to Ag Biotech Committee Efforts
- Gene Editing Options Outline
- Timeline for Completing Oxitec review
- Pollinator Briefing FAQs
- Region 3 WPS Case Follow-up: Anything else needed?

OPP to send to IO

- Use of FIFRA §7 Data in OPP Decision-making (working with OECA)
- Grants Briefing – OPP IO Pre-briefed 7/31

- Cannabis: Overview Briefing and PCC Paper
- OPP FOIA Process Briefing – OCSPP IO briefing on 8/2
- Follow-up to 8/1 Device Briefing
- Inert Ingredient Transparency: Next Steps
- Proposal to Shorten the Comment Period for Certain Proposed Registration Decisions: Paragraph for note to Acting Administrator Wheeler and Proposed Mock-up of web content
- Pollinator FAQs: timeline for incorporating info into the guidelines
- Follow-up to 7/18 Procedural Rule Briefing
- Pesticide 101 Briefing for Acting Administrator Wheeler
- Low-hanging Fruit Follow-up from South Dakota Ag Sectors Roundtable
